

THE SASH
WINDOW
WORKSHOP

Job Specification

Job Title: Wood Machinist

Reporting to: Joinery Manager

Key Responsibilities

- Efficient and accurate timber machining.
- Complete timber cutting sheets.

Key Requirements

- 1-3 years' experience with wood machining.
- Efficient at reading shop drawings and cut lists.
- Must be familiar with bench saw, crosscut saw, overhead and thickness planer.
- Must demonstrate maturity and have proven reliability.
- Must have a positive attitude.
- CNC experience a plus.

For this opportunity, some experience is necessary, however training will be given. Most essential is that the candidate can demonstrate reliability, the ability to work in a team and an excellent work ethic.

Key Contacts

- Joinery Shop Manager
- Senior Production Manager
